

Monster Vape Labs

Orlando, Florida--(Monster Group – March 17, 2023)– **Monster Vape Labs**, the originators, and producers of Jam Monster e-liquid and disposables vape devices, today announced the company's expansion in Europe with facilities in Athens, Greece, making them the first US-based E-liquid company to have a designated team in the European market. The European team will include sales, production, distribution, and warehouse departments. This expansion will allow Monster Vape Labs to reinforce our close long-term relationships with shops and distributors and will allow for greater production in less time.

Plans to develop the new operations in Athens, Greece, were initiated due to the increased demand for the brand overseas. The new office will serve as Monster Vape Labs' second location and will be spearheaded by Dimitris Agrafiotis, Monster Group's European Director of Operations.

Agrafiotis has been in the vaping industry for over ten years and is one of the most respected and recognized advocates in the vaping industry, known nationally and internationally for his strong support of responsible regulation and the efficacy of electronic cigarettes as a less harmful alternative to traditional tobacco products. Agrafiotis joined Monster Vape Labs in 2019 as a regulatory consultant. "The opening of Monster Vape Labs' secondary location in Athens, Greece, is an important step in increasing brand awareness and growth globally," said Agrafiotis. "It will solidify our commitment to and integrity within the European market."

Monster Vape Labs is widely known for its Jam Monster and Tobacco Monster flavor lines of e-liquid and disposable vape devices and has been at the forefront of innovation, development, creativity, & customer satisfactory in the vaping industry since 2015. "We are in a great position to enhance our presence in the European market and strengthen our relationships with industry professionals," added Chad Twiggs, Chief Marketing Officer of Monster Vape Labs.

About Monster Vape Labs

In 2016, Monster Vape Labs set out to make the highest-quality e-liquid in the cleanest, most technologically advanced manufacturing facility in the world - and succeeded. Today, Monster Vape Labs leads the industry in quality standardization from our ISO and GMP-certified facility in Orlando, FL. Our approach has changed the-liquid game, delivering an even more enjoyable and smooth flavor experience for adults of legal age, all while giving them the support needed to move away from combustible cigarettes. Even better, Monster Vape Labs produces the best-tasting e-liquid out there, with flavor profiles ranging from sweet to savory, bold to fruity, and everything in between. Our superior e-liquids and disposable devices are perfect for everyday vaping, offering a truly premium experience for every kind of customer!
