**Subject: Holistic Honey that Produces Radiance and Detoxifies**

I’d love to introduce you to a new product that I think could be a great fit for {{Company Name}} October beauty awards. Free of toxins, purifies the skin, and 100% raw- [Odnova’s GLO Honey](#) was carefully curated to promote a healthy and positive lifestyle naturally.

Ingredients such as tumeric root, shilajit, raw honey, propolis, and royal jelly improve collagen levels, protects against cellular damage, and acts as an anti-inflammatory.
